EDUCATION

UNIVERSITY OF CALIFORNIA, LOS ANGELES Los Angeles, CA
Bachelors in Linguistics and Computer Science June 2018
- *Cumulative GPA:* 3.27
- *Relevant Coursework*: Introduction to Computer Science I, Introduction to Computer Science II

WORK EXPERIENCE

HILELL AT UCLA Los Angeles, CA
Intern – Arts & Culture Aug 2015 – Dec 2015
- Worked alongside head of art department, graphic designers to edit and finalize promotional material for organization in the form of posters, fliers, and website graphics/layouts
- Assisted in advertising community events, contacting sponsors, mailing correspondence, and maximizing exposure of art department via website
- Managed local events under organization's art department via RSVP forms created via NationBuilder plugins

LEADERSHIP EXPERIENCE

CAL-NEV-HA KIWIN'S Aug 2010 – Jun 2014
Historian, Secretary, President
- Organized and delegated management of club budget, service events, and other logistics with a team of 10 to successfully spearhead a local chapter of an international community service organization
- Generated enough interest in club to increase membership by over 200%, becoming one of the largest student-run organizations on campus
- Co-founded and obtained $3,000 grant for school-wide gardening project to provide food for local homeless shelters and to teach students about self-sustainability, service, and selflessness
- Served as liaison between student body and divisional branch of larger organization; awarded with Most Improved Club and Most Service Hours at the district level among roughly 50 other competing clubs

PROJECTS

Rage Against the Machines
Programmed in C++
- Simple prototype of a turn-based game where the player fights off killer robots generated on a rectangular grid.
- Created using basic data structures, dynamic memory allocation, and basic sorting algorithms to implement simple functions

Personal Website
Programmed in HTML5, CSS3, JavaScript
- Personal website used to display art/design portfolios & future projects.
- Utilized HTML, CSS5, & JavaScript for front-end development; currently working on responsive web design

Hillel at UCLA Website
Built with NationBuilder, HTML5, CSS3
- Assisted lead web designer and head of the arts department at Hillel in improving existing website design and layout utilizing the NationBuilder interface.
- Worked on introducing and implementing new features to website such as customized RSVP forms, interactive photo gallery
